Eco Summits are a fun and unique opportunity for youth to build leadership skills with other like-minded students. Learn how you and/or your club can work with TreePeople to make real change on your campus and in your community - planting and caring for trees, cultivating gardens, recycling, water capture, and more!

Eco Club advisors can bring up to 5 student leaders each. Transportation can be provided for groups between 4-6 people.

For more information, contact TreePeople's Education Outreach Manager, Loyda Ramos, at lramos@treepeople.org
