Toilet Tube Binoculars

Who doesn't like to pretend! For some exploration fun, make these easy toilet tube "binoculars" to use when looking for birds and other wildlife in your neighborhood.

**What you will need:**
- Two toilet paper tubes
- Stapler
- Hole punch
- Yarn or string
- Stickers and/or other items for decoration

**Work together to:**
- Staple the two toilet paper tubes together - side by side.
- Use the hole punch to place holes on one end, at opposite sides.
- Cut a length of yarn and tie each end to a hole to create a strap.
- Decorate the binoculars using stickers and/or other materials.

*We want to share your binoculars!*
